Thompson car No. 108, the private car of the Richmond and Danville Railroad Company, has been placed at the disposal of the Governor. At what hour the train will reach Richmond can at this time not even be approximately stated, and it is more than likely that it will arrive here before daylight Wednesday.

However, the approaching of the fu-neral train will be advised by telegraph and the Howitzers will fire their guns in time to give the signal to all military and veteran organizations and to citizens at large to march to the ot to meet the remains at the arrival the train. They will then be borne in solemn procession to the Capitol, where they will be laid in state during the day to give the citizens of Richmond an opportunity to pay their respects to dead chieftain. stances Wednesday morning The entertainment committee request that citizens along the line of march have buckets of water on the sidewall so that if the veterans or others in the

procession get thirsty they can have something to drink. When the Lee monument was unveiled there was a great deal of suffering from the want of water, and the committee desire as far as practicable to avoid this to-morrow. R. E. Lee Camp, No. 1, C. DR. TUPPER RESIGNED.

His Resignation Accepted and Dr. T. P. Bell Selected as His Successor.

As was previously intimated, Rev. H. A. Tupper recently declined to serve longer in the position of corresponding secretary to the Board of Foreign Mis-sions of the Southern Baptist Convention, which he has held with great success and distinction for twenty years. The board met yesterday afternoon to hear the report of a committee appointed at a previous meeting for the purpose of securing the consent of Dr. Tupper to continue. The committee reported and presented a letter from Dr. Tupper, in

which he stated that he saw no reason for reconsidering his decision previously made known to the board. His declination was regretfully ac-cepted, and resolutions of the most cordial and complimentary nature attesting his high character and faithful services to the board and setting forth the loss the board will sustain in his withdrawal from the work were unanimously adopted The board thereupon elected Rev. T. P. Bell, D. D., the former assistant secretary, and now corresponding secretary of the Sunday school board located at Nash-ville. It is not yet known that Dr. Bell will accept the position. Many doubt that

The exact cause of Dr. Tupper's resignation and his purposes for the future are not positively known, but the former is supposed to have grown out of the action of the late general convention at Nash-ville, which removed the election of the and thus causing complications which he considered unreconcilable and, there-fore, making it proper that he should

A Stranger in the Elizabeth City Jail Mashed in His Head and is Lying in the Dixle Hospital-Cannot Recover.

NORFOLK, VA., May 29 .- A special to the Virginian from Hampton, Va., says: A man who had been brought to the county jail Sunday night mashed in his head this morning with a large iron seal, which is kept in the office, and is now lying in Dixie Hospital barely alive.

The man got off the Washington boat Saturday night and wandered out into the country towards Fox Hill, a small town, about seven miles from Hampton. He was last seen going into a pine thicket near the Salt marsh. Some time after, a number of small boys were picking number of small boys were picking berries in the woods, and were startled by hearing a terrible crashing through the limbs of the tree above them, and before they could move the body of the stranger fell at their feet. The boys fled in terror and an hour after the man was discovered and brought to Hampton. The tree was over fifty feet high, and the fall was from near the top. After being carried to the jail he was examined, and it was found that his back and a number of ribs were broken. After receiving medical attention he was made as comfortable as possible and then left in the fell at their feet. The boys fled in terro fortable as possible and then left in the office for the night in a bed. During the night the sufferer managed to crawl over to the desk, and taking up a heavy seal, he deliberately beat out his brains, mashing in his skull, scattering blood flesh in all directions, and when the jailer came down in the morning he found the walls and desk spattered with blood and walls and desk spattered with blood and the man still alive, but unconscious. He was taken to the Dixle Hospital at once, and is still alive, but nothing more and cannot recover. The stranger was evidently a fusitive from justice, and when taken to jail pleaded not to be sent back to New York, and probably killed himself rather than be carried back. The stranger would not give his name and nothing could be learned from papers on his person. The man is about papers on his person. The man is about papers on his person. The man is about ferty years old, slight but tall, and although he claimed to be a sailor, his soft hands and general appearance contradicted this statement.

AT THE CHURCHES.

An Eighteenth Anniversary Celebrated. Children's Day at Centenary.

Sunday was an interesting day to the copie of the Grace-street Baptist church, the occasion being the eighteenth anniversary of Dr. Hatcher's pastorate. The usual morning sermon was dispensed with, but the pastor gave a most interesting review of his work and the growth of the church in the past eighteen years. There are many true and faithful workers in the church, but it could not have grown to its present magnitude and use-fulness except under the wise and untir-ing leadership of its pastor. Dr. Hatcher, besides his work as pastor of this church, is engaged in many fields

of usefulness in which the denomination in general is benefited. The Baptist Orphanage of Virginia has

a very superior and interesting character. "The Ship of Rescue" was represented by an excellent representation of a large boat, in which the children taking part took their scats, and, with real cars, kept excellent time to the music. The organ imitation of a storm, distant muttering of thunder, the rising wind, light-ning flashes, the vices with the superior and its subtering of thunder, the rising wind, light-ning flashes, the storm burst and its subsidal was a splendid piece of work, which was duly appreclated by the audience as
